ABOUT KEY CURRENCY

Key Currency is one of the UK's leading foreign exchange specialists.

As a business, we serve a growing spread of private and corporate clients throughout the UK, Europe, Middle East and Australasia.

We provide a premium service to all clients, combining a depth of expertise and market insight with world-class payments infrastructure and dedicated account management.

We will always take the time to fully understand your needs and will work with you to execute the best strategies to meet them.

MARKET LEADING SERVICE

INDIVIDUAL ATTENTION

We will assign your own dedicated FX consultant who will be your contact every time you call. Providing continuity and consistency of service, and establishing a clear understanding of your requirements, we will work with you to minimise your risks, optimise your position and reduce your costs.

OPTIMISED EXCHANGE RATES

Currency markets are notoriously volatile. Rather than speculate, Key Currency will advise you on the strategy that will best minimise your risk. And we will provide access to preferential wholesale exchange rates not typically available from a bank.

TAILORED SERVICE

Key Currency will take the time to understand your needs and priorities, applying our insights and expertise to deliver a bespoke solution. We will keep you informed of market trends and developments and will work to execute your trades to your best advantage.

FAST, SECURE DELIVERY

At Key Currency, all payments are made through the secure channels of our international banking partners. Our world-class systems enable us to expedite the payment and release of onward transfers – subject of course to international time zones and business hours.

KEY CURRENCY FOR PRIVATE CLIENTS

When you buy and sell assets overseas, invest in international companies or move to a new country, you are unavoidably exposed to foreign exchange markets and currency risk.

This is especially true when buying or selling a property abroad. Adverse currency fluctuations between the dates of exchange and completion can prove extremely costly.

Key Currency can help minimise the risk associated with foreign exchange transactions, provide peace of mind, and save you money.

We will monitor the markets on your behalf and offer expert guidance on the best strategy. We will work to get you the best rates, avoid losses and reduce costs.

And whilst we are specialists in this area, we appreciate that our clients may not be. So we will always explain the options available in straightforward, jargon-free language.

CONTRACT OPTIONS

It is impossible to predict the future movements of currency markets with any degree of certainty.

Instead, we serve our clients best by identifying and minimising risk, and by using our specialist expertise to provide the strategies, contract options and preferential rates that will maximise the cost saving for each transaction.

SPOT CONTRACT

If you have funds available and wish to exchange currency immediately, you can purchase a Spot Contract. Contact Key Currency and we will secure the best Spot rate available. Your currency will be available for transfer to your nominated account as soon as we have received your clear funds.

FORWARD CONTRACT

When a transaction requires you to make a payment or series of payments in the future, you can purchase a Forward Contract. Fix your exchange rate for up to 12 months in advance, with the option to draw on the funds at any time, thus removing currency risk and protecting against adverse market movements.

SECURITY OF FUNDS

Key Currency is committed to conducting its business with the highest level of integrity. Protection and security of customer funds is our top priority.

Key Currency is approved by the Financial Conduct Authority as an Authorised Payment Institution.

We stringently observe the compliance and reporting regulations of every jurisdiction in which we are active, in order to protect both our customers and our reputation.

These regulations require Key Currency to safeguard client funds, holding them in segregated bank accounts.
